

# There is Only One

There is only One Whose Eternal Effulgence lights the universes. There is only One we need to strengthen our connection with Him, only One.

He forgives the penitent without questioning him or causing him to feel ashamed. He does not lay blame on anyone, for He knows well the capabilities of everyone. Every time you turn away from Him, He calls you back, again and again.

He says: "You will eventually submit to Me, I am your Lord, you will soon be brought back to Me.

Obey Me My servant, come back to Me...

Obey Me My servant, come back to Me...

I gave you what you have without your asking, and I taught you what you know without you studying.

If you were to count My Favors and pre-given blessings, you cannot reckon them. You will realize then how many favors I dressed you with since before.

Obey Me My servant and come back to Me, you will eventually submit to Me, and you will be soon brought back to Me.
